Dear Sir,

SUBJECT: STRATEGIC PARTNERSHIP OPPORTUNITY REQUESTED – VOPAK TRANSACTIONS

I hope this message finds you well.

My name is Femi Numa and I represent Taranis Novus Limited, an energy company based in Lagos, Nigeria. We are currently seeking a reliable and transparent supplier for refined petroleum products, specifically EN590 10ppm diesel and Jet A1 aviation fuel, for delivery to ready, willing and able clients and associates who are verified and active Vopak buyers needing the product.

Your name came up as an internationally reputed company associated with genuine transactions, responsive services, export capabilities as well as clear procedures and that speaks volumes.

We are interested in establishing a long-term relationship with you as a genuine seller that can provide verifiable documentation, clear procedures, and competitive pricing and who are also registered with Vopak terminals and can provide verifiable transaction records.

We are currently building a portfolio of vetted sellers to match with genuine and active Vopak-registered buyers for upcoming transactions. Our team is committed to transparency, efficiency, and long-term partnerships, and we are particularly interested in sellers who operate under Vopak-to-Vopak procedures or similar secure delivery models.

We're highly impressed with your well-structured sales process which includes and not limited to offerings Soft Corporate Offers (SCOs) with specific requirements for NCNDA, Zoom meeting, DD, BCL, and refinery approval before ICPO submission.

To proceed, we would appreciate the opportunity to review:

- Your current product availability and specifications
- Terminal location(s) and Vopak registration details
- Your preferred transaction procedures and compliance requirements

If this aligns with your operations, we would be glad to receive your Soft Corporate Offer (SCO) in order to explore synergies and discuss next steps.

Thank you for your time and consideration. We look forward to the possibility of working together.

Warm regards,
